To Whom It May Concern:

This is to acknowledge that Butler Manufacturing has furnished more than 30 metal building projects (over 1,200,000 square feet of roofed area) to Park Avenue Construction, Ltd., who has been using the Hi-Tech Tilt™ wall composite system on these buildings for the past 9 years. These Hi-Tech Tilt™ wall panels have been applied in both load bearing and non-load bearing conditions. To date Butler Manufacturing has not received any negative feedbacks or complaints on any of these projects.

Should anyone have any questions or concerns please feel free to contact us.

Sincerely,
